

Habilitation Theses

The [Habitationsverordnung](#) (Habilitation Ordinance) of ETH Zurich obliges all habilitation students to submit an electronic version that corresponds to the printed version to the ETH Library, i.e. that means publishing it via the Research Collection.

Authors who do not wish to allow global online access to their thesis can indicate this in the Research Collection's [submission process](#) by either applying an embargo to their document or by choosing the Closed Access file access mode (cf. [Access rights](#)).

If you no longer have a nethz account to submit your habilitation thesis, please [contact us](#) to receive a guest account.
