# Assign ORCID iD

Step 1: Link your ORCID iD to your ETH person profile	
To be able to assign your ORCID iD to publications in the Research Collection, you need to first link your ORCID record to your ETH profile. In order to do so, please log in to the Addresses and Personal Data application.	
In your profile, click on "link ORCID iD" and log into orcid.org. Agree to its import. The ORCID link will then be created automatically. If you do not have an ORCID iD yet, you can register on orcid.org for free in the same step ("link ORCID iD").	
Your ORCID iD will be displayed in your personal profile as well as in your public profile on ETH Zurich's People Search.	

> ⓘ Your Research Collection user profile is updated over night. Therefore, once you have connected your ORCID iD to your ETH profile, you will need to wait for the next day in order to use the features described in steps 2 and 3 in the Research Collection.

Step 2: Assign your ORCID iD to publications in the Research Collection	
Sign in to the Research Collection with your nethz Login. Click on "**Assign ORCID iD**" in the left hand navigation under the "Publish" heading.	

The list displayed on this page shows publications that contain your name in the author, editor or another contributor field.

Use the checkboxes to select an item and then use either the "Assign ORCID iD" button to assign your ORCID iD to the selected item or use "Dismiss publication" which will ensure the publication doesn't show up again in this list.

(i) Note

Assigning your ORCID iD to a publication will also update your author/contributor name in the item's metadata with the exact spelling used in your ETH person profile

Assign ORCID iD

Your ORCID iD: 0000-0003-0289-0345

Searched name(s): | Helbing, Dirk OR Helbing, D |

[Refresh]

Instructions

Use the checkboxes to select an item and then use either the "Assign ORCID iD" button to assign your ORCID iD to the selected item or use "Dismiss publication" which will ensure the publication doesn't show up again in this list. Be sure to handle the publications in this list prior to changing the page.

Note

Assigning your ORCID iD to a publication will also update your author/contributor name in the item's metadata with the exact spelling used in your ETH person profile
