

Format use cases

In this section, we present some customer requests with our answers that may be helpful for other users.

Please consider that some conditions may have changed in the meantime. The presented use cases will not be updated.

These use cases are primarily meant to give interested persons some insight into typical questions that arise in the context of format conversions.

If you have any questions regarding the use cases, you are kindly invited to contact us via data-archive@library.ethz.ch.
