

Author name

If you [enter your ORCID ID](#) in your ETH personal profile, both the ORCID ID and the spelling of your name will be transferred from the ETH profile to the Research Collection.

If you would like to appear in the Research Collection under a different spelling as author, you can enter your preferred author name in the [Addresses and Personal Data](#) application.

To enter a preferred author name and, if applicable, other name variants, log in to [Addresses and Personal Data](#).

Change of Addresses and Personal Data

Please login by using your ETH password for web applications (LDAP):

Start →

This application, available to all ETH members, enables the independent mutation of personal addresses and communication data, as well as the management of personal data stored in the central database.

In case of problems within the application please use the help-link (top right of Web page). Should you nevertheless have further questions, you can contact the technical responsible persons directly by using the contact-link.

Please allow (session-) cookies. (**Remark: deleting cookies**)

Please do not forget to terminate your session by clicking the logout-link. If you share this computer with other people, delete all cookies and close all browser windows before leaving this computer.

Enter your preferred variant as the **main variant** in the "Author names" section.

Typ *	Familienname *	Vorname	Status	Del
Hauptvariante	Rees	Rainer	Offen	✘
Alternative	Rees-Mertins	Rainer	Offen	✘

Abbrechen ✘ **Hinzufügen** → **Speichern** →

Other spellings under which you have published can be entered as alternative variants.

Newly entered author names initially appear with the status "open". They are checked by the Research Collection team.

You will receive an **e-mail notification** as soon as your author name has been confirmed.
